

Last year the Parish Plan Group held the “Help Shape the future of Waldringfield” event to identify what issues were most important to the residents of the village and to seek opinions on what opportunities and challenges lay ahead.

In addition to the meeting we also sought peoples views via Waldringfielders and Facebook.

Armed with this information the Steering Group is now compiling a list of topics to include in a new questionnaire. This will go to every household in the village. You will be able to complete it on the paper copy or online or via email. It is 10 years since the original questionnaire was compiled and much has changed during the intervening years, on a National and Global scale as well as nearer to home.

With the information from the questionnaire we will be able to update our Village Plan.

This will then help the Parish council to -

- better represent the views of the residents
- use the Plan as leverage to improve facilities and services
- identify local character and features that need to be preserved

The Steering Group has just 7 members and we would be delighted if you had some ideas you wish to put forward or better still, if you would like to join the Steering Group. Just give me a call or an email.
